

CoinDeal - cryptocurrency exchange platform that aims high!

The world of cryptocurrencies is getting bigger and bigger every day. Digital currencies became worldwide known at the end of 2017. The current situation on the market seems to be more stable as exchange prices don't change that drastically. Even though it's hard to see some news in local television about cryptos, blockchain technology on which digital currencies are based - does better than ever. Newly created projects open the door to using cryptocurrencies in everyday life.

To get cryptocurrency, you can either buy the most popular ones on platforms like BuyCoinNow.com using a credit card or quick money transfer processor DotPay. To exchange BTC for other cryptocurrencies, you need to find a trusted cryptocurrency exchange platform. A platform that takes care of the security of your funds. This platform is CoinDeal.

About the platform

The platform took off in March 2018, after four months it was in a high position in the global CoinMarketCap ranking, and the daily volume reaches up to 10.000.000 USD! Its founders - Adam Bicz, Kajetan Maćkowiak and Filip Dzierżak - have been developing business projects based on blockchain technology for many years.

There are 22 cryptocurrency pairs on CoinDeal - including the most popular ones, mostly paired with Bitcoin (BTC), but also with Ripple (XRP) and fiat - euro (EUR) currencies, dollar (USD) and pound (GBP); the number of available coins is growing very fast. New cryptocurrencies appear most often through the voting system of the involved community. Thanks to this, users have a real influence on the future shape of the exchange. The voting process can be followed [here](#).

Deposit and withdrawal options are now available in the following currencies: [CHECK MARKETS](#). In addition, you can use a credit card to buy BTC through a trusted partner platform - [BuyCoinNow.com](#) - and send it straight to the CoinDeal wallet.

Users are the most important

The platform offers frequent promotions and an affiliate program to its new and regular users, where you can receive 20% of their transaction fees for inviting your friends to register and trade. Users are also often surprised by promotional events on CoinDeal like fee discount on some markets or airdrops.

The users are offered transparent funds and the most advanced security standards. Exchange users are protected by complex password requirements, mandatory 2FA (two-step authentication), email confirmations for withdrawals and warnings about attempts to login from different IP addresses than usual. You can read more about this [here](#).

The platform provides the API for its users, the documentation is available at: <https://apigateway.coindeal.com/api/doc>

The advertisement banner for CoinDeal features a dark blue background with a subtle pattern of eyes. In the center, a smartphone and a laptop display trading charts and market data. The CoinDeal logo is in the top left. Payment and service logos are in the top right: VISA (QUICK PURCHASE), Mastercard (FASTER AND CHEAPER TRANSFERS), SECI WIT, and VTS SWISS GMBH. The central text reads "FAST, SAFE AND USER FRIENDLY CRYPTOCURRENCY EXCHANGE". Below this are four icons with text: a shield for "AML & KYC POLICIES", a speech bubble for "AVAILABILITY OF SUPPORT 24/7", a rocket for "FAST AND EASY VERIFICATION 24/7", and a credit card for "BUY BITCOIN USING YOUR CREDIT CARD". At the bottom, a ticker shows various cryptocurrencies and their price changes: Bitcoin (BTC) +1.0%, Litecoin (LTC) +2.4%, BitcoinCash (BCH) +1.8%, Dash (DASH) -1%, Ethereum (ETH) +1.5%, Ripple (XRP) +2.4%, Nano (NANO) +2.2%, Bytecoin (BCH) +12.2%, Verge (XVG) +0.1%, Lisk (LSK) -0.2%, and Qtum (QTUM).

CoinDeal is a good place not only for world-oriented cryptocurrency lovers.

In case of any doubts or problems, users can count on the quick support of the technical team, available 24/7, communicating in several languages. The market is expanding its already colorful channel on YouTube - where apart from animations and general tutorials, the user will soon find guides and necessary information from the world of cryptocurrencies.

All materials before logging in are available in English, Chinese, German, Korean, Polish and Russian, and further language versions are also planned. The CoinDeal team is also working on a mobile application platform in iOS/Android versions, which about you will probably hear soon.

Our office is located in Malta. We are under supervision of Malta Digital Innovation Authority what increases user safety by providing the strictest protection level on the market. Currently, work is underway to obtain a FINMA license (an institution regulating financial activities) in Switzerland due to taking care of the highest level of security.

In the meantime, the creators use the office located there, in order to store the keys to cold wallets in the deposits of Swiss banks or to secure the funds of the exchange. The exchange

management is also seeking a license in the United States to allow US traders to use the platform.

Constant development

The CoinDeal team is also involved in charity events, including for the benefit of the Wrocław Foundation "On the rescue of children with cancer". Cryptocurrency exchange market creators are already planning to help those who need it most.

In July this year, the exchange became the official partner of Wolverhampton Wanderers, a team that will compete in the Premier League in the 2018/19 season. The CoinDeal logo decorates players' shirts, and will also appear on Molineux Stadium advertising bands. It is first that big cooperation between cryptocurrency exchange platform and a Football team as well known as Wolverhampton Wanderers. One of the founders Kajetan Maćkowiak says about that cooperation: "At CoinDeal, we are acutely aware of the impact that football marketing can have on our brand. We believe that Wolves will help us reach sports and trading fans all over the world."

CoinDeal is a cryptocurrency exchange platform that measures globally and puts the user's needs always first.
